THANKSGIVING PROCLAMATION.

BY THE GOVERNOR OF WISCONSIN.

Another year of prosperity has been granted to the people of Wisconsin. The state is free from internal dissensions, new industries are being developed, and commendable progress has been made in all that tends to elevate the people and promote their welfare.

For these blessings, it is proper that we reverently return thanks to Almighty God.

Now, therefore, I, Jeremiah M. Rusk, governor of the state of Wisconsin, in harmony with with the proclamation of the president of the United States, do appoint

THURSDAY NOVEMBER 25TH INSTANT,

as a day of thanksgiving and praise, and I recommend that the people, on that day abstain from labor, and assembling in their usual places of worship, give thanks to Almighty God for His infinite goodness to us as a people, and that we generously remember the poor we have among us.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed.

[Great Seal] Done at the city of Madison this 9th day of November, in the year of Our Lord, one thousand eight hundred and eighty-six.

J. M. RUSK.

STATE SCHOOL FOR DEPENDENT CHILDREN.

WHEREAS, Chapter 377, Laws of 1885, provides for the establishment of a State Public School for Dependent Children, between the ages of three and fourteen years (excluding those of unsound mind and body, and criminals and incorrigibles;) and

WHEREAS, The State Board of Supervision, in conformity with their duties under said law, have located said school at Sparta, and have certified to me that three buildings constructed said city for the purpose of said school are completed and ready for use.

Now, therefore, I, Jeremiah M. Rusk, Governor of the state of Wisconsin, do issue this my proclamation, setting forth that the state Public School is ready for the reception of dependent and neglected children as provided by Chapter 377, Laws of 1885, and I do enjoin it upon all officers named in the law aforesaid, to whom the duty appertains, to use all due diligence to secure the admission to said School of all children entitled to its benefits, or so many thereof as can be admitted under the rules adopted by the said State Board of Supervision.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed.

[Great Seal] Done at the Capitol, in Madison, this Thirteenth day of November, in the year of our Lord one thousand, eight hundred and eighty-six.

J. M. RUSK.

SOME MORE GRUMBLING.

The mugwump papers seem to forget that the present administration is democratic. They expected that it would be run on the principle of a public office is a public trust, and that efficiency and faithfulness in a public officer, and not political influence, would control the tenure of his office. Mr. Cleveland made some of the mugwumps believe that he would give the country a simon pure civil service reform administration in which bad democrats would be left out in the cold, good republicans kept in office, and only democrats not guilty of pernicious political activity, would be appointed to places under the rose water administration.

The New York Times and the Harper's Weekly pinned their faith in Mr. Cleveland. They thought he could do no wrong, and insisted that he would establish a new and a matchless era of politics in this country. Now hear what the Times has to say of the president which received its strong support: "It is generally understood that, for one reason and another, the administration has given a good deal of 'patronage' to the political managers in the states of Indiana, Virginia any Maryland, and in certain districts of Wisconsin and Illinois. In all of these states, and especially in the three states first mentioned, this has been done in a manner *quite inconsistent with the principle of public office as a public trust.* On the contrary, it has been largely done in accordance with the theory of public office as *partisan and personal spoils.* How far the cabinet officers and the president have known in what degree the appointments have been thus used we cannot say. Naturally the politicians who have had the handling of the spoils have not published the facts, and the administration has made no explanation of its position regarding them. But the facts themselves, as shown by a great deal of concurrent testimony, cannot very well be denied. Neither can the effect that was produced in the recent elections."

But the Times does not stop with this sharp rebuke. Referring to the Maryland election, the Times further remarks: "In Maryland the Democrats won at the polls, but their victory was a disgrace, and in regard to the administration it was a disaster, because it identified the administration with some of the most insolently, corrupt and even criminal political leaders that have ever cursed any party."

Then comes Harper's Weekly with its complaint against the president for permitting democratic officeholders to act the part of bosses in politics. This is the language of the Harper's: "Mr. Cleveland's hold upon the country has been weakened only by the occasional departures of his administration from his own principles. He has suspended Messrs. Benton in Missouri, and Stone in Pennsylvania, and Marshall Hill in North Carolina, and he advised Mr. Taylor, pension agent in Tennessee, not to attend the convention which was to nominate him for governor. There are plenty of other instances of the deliberate violation of the executive order in regard to interference in party action which deserve no less summary attention."

All this trouble and disappointment to the Times and the Harper's grow out of a misconception of the president. He is a democrat. His administration is democratic. Democrats expect all the offices, and as a rule they get them. The principle of public office is a public trust is good in theory, but it is not honored in practice by Mr. Cleveland. He has not only appointed some 30,000 democrats to office, but he has appointed some very bad ones to responsible places, so that he can not in the very nature of things do otherwise. When the republicans were in power, republicans filled political offices, and when the democrats got into power, it was quite natural that they should expect to have the spoils.

This is not the Miss Nancy sort of civil service reform that Mr. Curtis preaches, but it is the kind that both political parties have adopted from the foundation of the government until now. It is true, it is not the best kind of civil service, but it is the sort we all expect under the present condition of things political in this country.

It will be sincerely regretted that Congressman Price is not expected to live. For some time he has been troubled with a cancer of the stomach, and Dr. Marks, of Milwaukee, tells him that there is but little hope for his recovery. For some years Mr. Price has been one of the foremost men in this state. Years ago he was a poor man and dissipated. He reformed, went to work, and soon won the confidence of the people and became prominent in the business and political circles of the state. He has been a noted temperance reformer and has been the means of re-claiming many young men who like himself, seemed abandoned to dissipation. The state can ill-afford to lose such a man. Whatever may be his peculiarities, they can be overlooked at any time, and the state would be the better served had it more men like Mr. Price.

Wouldn't Give Himself Away.

NEW YORK, Nov. 16.—Mr. J. J. O'Donoghue, the Tammany leader who recently called upon President Cleveland, was shown a printed statement that he had declared the Democratic party all over the country to be opposed to Mr. Cleveland. Mr. O'Donoghue, after reading it, remarked: "Pretty strong language, isn't it?"

"Did you say it?" asked the reporter. Mr. O'Donoghue declined to reply, stating that he did not care to say anything at present.

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefitted the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and liver complaint, and the German Syrup for cough and lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles 10 cents remain the same size.

BONDED BUTCHERS.

CONDITIONS EXACTED OF CHICAGO STOCK YARDS MEN.

No One Re-Employed Until He Signs a Contract to Give Two Weeks' Notice of Intention to Quit—One Effect of the Strike—The Imported Men—Labor Notes.

CHICAGO, Nov. 16.—Only 2,000 of the strikers were taken back to work Monday at the stock yards. This action of the packers is explained in various ways. First, there are but about 20,000 hogs in the yards, and only a small force will be needed for a day or two; and then, it is said, the packers do not care to employ a large number of men until they are assured that the men are acting in good faith. One packer said he had learned that the men had planned to strike again on the 24th. Some of the strikers say that the packers are working a bluff game; that they want all the old men back, but have begun taking them back slowly in order to make the skilled butchers, who stand aloof, ready and anxious to return through fear of losing their places permanently. Armour & Co. said that they only took back a small number of the old men, as the force at their packing house was nearly full. They said they intended to keep all the new men at work as long as they wished to remain. Many other packers also say the same. But the new men are uneasy, and the probability is that this question will be settled as it was before—by the new men leaving at their own desire, as soon as the absence of the military guard leaves the strikers at liberty to adopt their usual tactics. The leading packers have pledged the new hands protection and permanent work, but they know the old men have a bitter feeling against them, and will make their lives at the yards unendurable. Quite a number quit work Monday and were escorted out of the yards and to a safe distance by the soldiers. It is freely predicted that in a week or so few if any non-union men will be found at work.

All the strikers taken back are compelled to sign a paper in which they agree not to leave their work without giving their employers two weeks' notice. On the other hand, the packers agree not to discharge any of their men without giving them two weeks' notice. To still further bind the agreement, each man is required to deposit $50 with his employer, this sum to be gradually taken out of his wages.

One effect of the strike was demonstrated by a dispatch received by a leading packer from one of his best customers in the east, saying that the customer was buying his beef on the hoof, and should not require any more dressed beef. It is stated that dispatches to this effect are beginning to arrive in quantities that threaten to greatly affect the dressed beef trade with the east.

Although good order prevails at the yards and in Packingtown none of the militia will be released from duty for a few days, at least. They will be relieved by degrees as things settle down to their normal condition.

The only local assembly engaged in the strike which openly repudiated Mr. Powderly's authority and refused to return to work was the Cooper's assembly, of which George A. Schilling is a member. The action of this assembly, taken into consideration with Schilling's action in the trades assembly, is rather significant.

Striking Coopers In Cincinnati.

CINCINNATI, Nov. 16.—From 1,000 to 1,200 coopers are idle in this city because of a refusal of barrel and keg manufacturers to grant their demand for an advance in wages, made about two weeks ago. The schedule presented by the journeymen is a complicated one but it amounts to a demand for an increase in wages of about 10 per cent. It was presented as an ultimatum, with the threat that if it was not accepted by Nov. 15 every cooper would take off his apron and lay down his draw-knife. The threat was executed Monday morning.

The committee is made up of leading educators from the various large cities. The senate bill for federal aid to common schools was discussed at length. A favorable report was made upon the principle of the bill, without indorsing all its provisions as to details. Arrangements were made for the national convention of school superintendents at Washington in February. In interviews held with prominent delegates a general sentiment was expressed in favor of increased national appropriations for educational purposes.

Griswold Lorillard, Mr. and Mrs. Whitelaw Reid, Mr. and Mrs. Pierre Lorillard, ex-Mayor Cooper, Bishop and Mrs. Potter, Judge and Mrs. C. P. Daly, and many other well known people. A feature of the occasion was the presence of many of the workmen from Mr. Hewitt's iron works.

CHICAGO, Nov. 16.—The National Cattle Growers' Association of America held its annual session at the Sherman house Monday afternoon, the last meeting prior to a consolidation with the National Cattle and Horse Growers' association of the United States. PIQUED BY A POEM.

AN INCIDENT OF THE RECENT HARVARD CELEBRATION

Causes a Coolness on the Part of Princeton—Why Dr. McCosh Took an Uncomonious Departure from the Festivities—Holmes' Poetry and a Conspicuous Lack of Honorary Degrees.

NEW YORK, Nov. 16.—At the celebration of the 250th anniversary of the establishment of Harvard college, Dr. McCosh, of Princeton college, took his departure shortly after Dr. O. W. Holmes had recited his poem, and much speculation was the result. It transpired that the doctor's sudden departure was caused by a passage in Dr. Holmes' poem, and the poet having had his attention called thereto, wrote to The Boston Post disclaiming any intention to cast a reflection on Princeton. The part of the poem which is supposed to have done the mischief of shaking the friendly relations between Harvard and Princeton is as follows:

As once of old, from Ida's lofty height,
The flaming signal flashed across the night,
So Harvard's beacon sheds its unspent rays,
Till every watch-tower shows its kindling blaze.
Caught from a spark and fanned by every gale,
A brighter radiance gilds the roofs of Yale;
Amherst and Williams lift their flambeaus shine,
And Bowdoin answers through her groves of pine;
O'er Princeton's sands the far reflections stend,
Where mighty Edwards stamped his iron hand;
Nay, on the hill where old beliefs were bound
Fast, as if Styx had girt them nine times round,
Bursts such a light that trembling souls inquire
If the whole church of Calvin is on fire!
Well may they ask, for what so brightly burns
As a dry creed that nothing ever learns?
Thus, link by link, is knit the flaming chain,
Lit by the torch of Harvard's hallowed plain.

Dr. Holmes says of the objectional lines:

I can not believe that the excellent and venerable president of Princeton would take offense at the suggestion that a ray; or the reflection of a ray, from Harvard, which lighted the first torch in the wilderness, and has certainly been one of the centers of illumination for two centuries and a half, has blended with the other lights which made Princeton brilliantly conspicuous among our educational institutions. The "sands" of New Jersey were only a geological reminiscence of a recent visit to that state, and reference to Edwards was intended to typify the profound impress which that extraordinary man left on the intellectual world in which he moved, and over which he still exerts a commanding influence.

A correspondent said to Dr. McCosh Sunday:

"Doctor, I wish to ask you a few questions about your recent visit to Harvard."

"Well," he said, "the paper by James Russell Lowell was a very beautiful and very wise one. He urged the same objections that I had done against the indiscriminate elective system of Harvard and the omission of Greek as a subject required in order to confer the B. A. and A. M. degrees."

"Was there not a peculiar reference to Princeton in Dr. Holmes' poem?"

"I heard what he said, but of course I did not take it down. I am anxious to have an authenticated record of what he said about Princeton in his poem, but until I do I am not prepared to say anything."

"Was not Princeton snubbed in the conferring of degrees?"

"I have written to the secretary of Harvard university, but am not prepared to give that letter at present to the public, as I hope that explanations will be given which shall clear up the whole subject. I did not expect or wish a degree for myself, as I got an LL. D. from Harvard when I came to this country. But I did think it rather strange when degrees were scattered around us, to Yale, Columbia, Pennsylvania, Johns Hopkins—six to Yale, three or four to Columbia—that no honor was bestowed on any member of Princeton college. I have reported this to the professors here, and find they are hearing it calmly and believe that the public will understand it."

Nothing Ambiguous About This.

RICHMOND, Va., Nov. 16.—Hon. George D. Wise publishes a card in the morning papers in which, after referring to charges made against him during the late political canvass by William Lamb, of Norfolk, to the effect that Wise was guilty of certain immoralities, and remarking that his duty to his friends and the public makes it necessary that he should take unwilling notice of the statements made by Lamb, he continues as follows: "I depart from the even tenor of my way to declare the charge referred to utterly false and baseless in whole and in part, the author of it an infamous liar, and the purveyor of the scandal to the public car a filthy scoundrel, fit only for the scorn and contempt of all honorable gentlemen. I have stated that I never had a quarrel with William Lamb, and I can have none with him now or hereafter, because he is a blackguard in more senses than as the promulgator of baseless scandal, and a coward in more views than in causing, as the report of his townsmen has it, his own arrest to escape a duel which he pretended to accept."

Our Citizen Soldiers.

WASHINGTON CITY, Nov. 16.—The reports of officers of the regular army who were detailed during the summer to make inspections of the militia of the various states in encampment at different points throughout the country have been made public. The reports give a very comprehensive idea of the organizations inspected, and speak in the highest terms of the character of the troops, and of the desirability of effecting an intimate and cordial relation between the militia and the regular army. Numerous recommendations are made for insuring a more successful training in certain respects, which will have a tendency to improve the militia service.

A New Form of Suicide.

BOSTON, Nov. 16.—Henry Lombard, of the firm of A. C. Lombard's Sons, commission merchants, committed suicide at Young's hotel, Monday morning, by inhaling gas through a rubber tube. The act was probably due to ill health. He leaves a wife and three children.

RULED BY PREJUDICE.

Few persons realize how thoroughly they are controlled by prejudice even to their own disadvantage. For many years the treatment of rheumatism, neuralgia, sciatica and headache has been by some outward application, and, therefore, without stopping to think that the origin of these troubles *must*, from necessity, be internal, the weary sufferer continues to rub, rub and find no relief. Athlophoros is taken internally, and as a proof that this is the correct principle, it cures surely and quickly. The statement of those who *have been cured* ought to convince the incredulous.

Lowell, Mich.

We are satisfied that Athlophoros is giving the best satisfaction of any rheumatic remedy we are selling.

HUNT & HUSTON.

George S. Baldwin, dealer in coal and wood, Kenosha, Wis., says: I was afflicted with rheumatism for several years, and at times suffered quite severely. I used two bottles of Athlophoros and soon had relief."

Lambert Smith, Jr., Sheboygan, Wis., says: "I have had rheumatism for at least fifteen years. I did not suffer with it steadily, but was subject to attacks most any time, and always sure to be laid up with it during the fall and spring of each year. The disease was not confined to any one part of my body; it would appear first in one place then in another, but more frequently in my feet and ankles, which would swell out of all proportion. It is just about a year since I used a bottle of Athlophoros. Although I have passed through the fall and spring I have not had any rheumatism whatever since I used that one bottle of medicine."

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist the Athlophoros Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is $1.00 per bottle for Athlophoros and 50c. for Pills.

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diseases of women, constipation, headache, impure blood, &c., Athlophoros Pills are unequaled. 7

Who Struck Wm. Patterson

The man who bought a $20 Over coat for $15 and went away happy.

Where Was Moses when He Broke His Lamp Chimney ?

Trying on a pair of $8.00 pants, which he bought for $5.00.

He smole a pleasant smile
And many a wink he wunk,
As he went away rejoicing
With a twenty Shilling trunk.

And many other attractions too numerous to mention.

To Err is Human.

But it is positively inexcusable to administer or take narcotics or potent sedatives to relieve intranquility of the nerves, the easily discoverable cause of which is simply indigestion. Hostetter's Stomach Bitters is the remedy indicated when the nervous system is weak, and consequently super-sensitive and untranquil. Braced and quieted by this superlative tonic, the system obtains needful repose at night, dyspeptic qualms cease to disturb the stomach, and mental inquietude disappears. The habit of body becomes regular, the liver and kidneys are healthfully stimulated, and bodily or mental exertion ceases to be a wearisome and difficult task. Neuralgia, rheumatism and malarial disorders, and kidney troubles, are entirely eradicated by this matchless invigorant and regulator.

A QUESTION ABOUT

Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well it don't. But it does cure any disease for which a reputable physician would prescribe Iron. Physicians recognize Iron as the best restorative agent known to the profession, and nature of any healing chemical can will substantiate the assertion that there are more preparations of it than of any other substance used in medicine. Its strong constructive quality (iron is acknowledged to be the most important factor in successful medical practice, it is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS a perfect, satisfactory Iron combination has never been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. **BROWN'S IRON BITTERS** cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily.

BROWN'S IRON BITTERS do not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by one the first symptom of benefit is renewed energy. The nerves then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The spectacle at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

AN INFAMOUS BUSINESS.

A SECTION OF THE "MAIDEN TRIBUTE" VILLAINY UNEARTHED,

Showing That the Home Field of Total Depravity Is Distressingly Extensive—Six Young Girls Enticed Away from Chicago for Immoral Purposes and Restrained of Their Liberty by Force.

CHICAGO, Nov. 16.—Warrants were sworn out by Mrs. Annie McDermott, a dressmaker living at No. 323 West Taylor street, before Justice C. J. White Monday for the arrest of Charles Smith and J. W. Morgan, charging them with abduction. Smith was found at his office on Clark street and arrested and locked up, but Morgan could not be found. It appears that a week ago Friday Maggie McDermott, a very pretty 15-year-old girl, living with her mother at 322 West Taylor street, disappeared, and for a time it was not known what had become of her. Two days before she left home, saying to her mother that she was going to the house of a friend named Maggie Gruel to stay for a day or two. Saturday Mrs. McDermott, who had become somewhat anxious about her daughter staying so long, went to see Mrs. Gruel, and learned that both girls had left home the night before, and had not returned. The matter was reported to the police, but nothing could be learned from them about the matter. Finally another daughter of Mrs. McDermott remembered about her sister having received a card from a man named Smith, asking if she did not want to join a traveling theatrical company. The girl had frequently spoken about becoming an actress, but as it was against her mother's wishes to adopt such a profession she paid no attention to the communication. The mothers of the missing girls went to see the so-called theatrical agent, and accused him of taking their daughters. He at first denied all knowledge about them, but finally admitted that they had been to his office and joined a theatrical company which he had sent out Friday night to Hurley, Wis. He stated that he had placed them in a position where they could take m[illegible] parts on the stage, and that they were [illegible]ceive $10 a week and have all their exp[illegible]aid. There were six of them, and in a[illegible]bility they would join the same comp[illegible]

A brother of one of the missing girls went to the station and there met an employe of the railroad, who saw his sister and the rest of the party got on the train. A CAPITAL CITY SCANDAL.

Policemen Instructed to Keep Their Eyes on Congressmen.

WASHINGTON CITY, Nov. 16.—The hearing before District Commissioner Wheatley of the charges preferred against Lieut. Arnold, of the police force, for circulating a "false and malicious" report about Maj. Walker, chief of police, was concluded Monday. Lieut. Arnold was on the stand in his own defense, and swore positively that Maj. Walker, at a meeting of the lieutenants of the police, said he thought "it would be a good idea for the men doing duty south of the avenue [a locality where many disreputable houses are located] to note the habits of members of congress."

A similar statement made by the lieutenant to one of his sergeants a month or so ago gave rise to the story that the information obtained was to be used in influencing legislation to increase the police force, and led to the lieutenant's trial. The ultimate object of this espionage, however, according to the gossips here, is to influence congress to vote for the opening of a street and its improvement, through lands held by real estate speculators.

The Clerk Played Possum.

NEW YORK, Nov. 16.—Dr. Edward Blakeny, once a leading physician of Brooklyn, was arrested Monday for breaking into a drug store Sunday night and attacking the night clerk with a knife. Blakeny is a confirmed drunkard. He broke into the drug store to get whisky. After being stabbed the clerk fell and remained quiet. Blakeny, thinking him dead, proceeded to find and drink a quantity of whisky. He then went out on the street and fell in a drunken stupor. The clerk was but slightly hurt. Blakeny's crime, however, is is a state prison offense.

Better Look for Him in Canada.

GALVESTON, Tex., Nov. 16.—County Treasurer Burke is still missing. It has been discovered that $6,000 paid him during the past four months by the sheriff has not been deposited at the bank where the treasurer was in the habit of placing the funds. Further search of his books and accounts will be made before he is pronounced a defaulter. It is now reported that Burke was seen Nov. 6 on a train for New Orleans. The general impression, however, is that he has committed suicide.

Would Have Been Bad for the Schemers.

PRINCESS ANN, Md., Nov. 16.—James Stevens, colored, a prisoner in the Somerset county jail, set fire to the jail Saturday night, intending to effect his escape and enable others to do so also. The fire was discovered in time to thwart the scheme. In fact the plan was so badly contrived that the prisoners were nearly suffocated, being unable to escape, and would have perished had not the flames been extinguished.

Worked the Missionary Racket.

PHILADELPHIA, Pa., Nov. 16.—"Rev." William Smith (colored) has been committed to prison to answer charges of larceny. He has swindled pastors of a large number of churches and numerous merchants by pretending to be a South African missionary and soliciting funds for the work.

Tally Sheet Forgers Bound Over.

COLUMBUS, Ohio, Nov. 16.—Algernon Grenville, ex-prosecuting attorney; Robert Montgomery, Dr. C. R. Montgomery, B. H. Marriott, and Otto W. Horn, defendants in the tally sheet forgery case, have been bound over to the court of common pleas. Fred Staube was dismissed. Justice Fritchoy said he had considered the evidence very carefully and gave his decision from his own honest convictions.

A Feminine Fraud.

WASHINGTON CITY, Nov. 16.—The notorious "California Duchess" made her appearance again in Washington last week. Saturday afternoon she made herself so offensive at the residence of a foreign minister that the police had to be called to eject her from the premises. It is understood that steps are being taken to procure an indictment for blackmail against this persevering female fraud.

Mrs. Lilly Cut a Dash.

NEW YORK, Nov. 16.—Mrs. Lucy C. Lilly, a writer for the Harpers, hired a house at White Plains a year ago and has been living in expensive style, cutting a dash in that quiet community. On Oct. 9 she disappeared, leaving a large number of unpaid bills. It is said that many bills against Mrs. Lilly have been forwarded here from Pittsfield, Mass., for collection.

A British Foreman Found Guilty.

NEW YORK, Nov. 16.—Thomas Lee, assistant foreman at Perkins' warp factory, Williamsburgh, whose alleged familiarities with girl employes, caused a strike at the factory some time ago, has been found guilty of improper conduct. He is a married man, and will probably be sent to the reformatory.

BASE BALL LEGISLATION.

Joint Meeting of the League and Association at Chicago.

CHICAGO, Nov. 15.—The joint-rules committee of the National league and the American association met in this city Monday to amend and alter the playing rules of the two organizations into a standard code, which it is intended shall govern the play not only of these two but of all organizations which are under the protection of the national agreement. The committee is composed of A. G. Spalding, of Chicago; John B. Day, of New York; John I. Rogers, of Philadelphia, for the league; and Zach Phelps, of Louisville; O. P. Caylor, of Cincinnati, and William Barnie, of Baltimore, for the association. Capts. Anson, of Chicago; Ward, of New York; Comiskey, of St. Louis, and Swartwood, of Brooklyn, were admitted to take part in the proceedings as an advisory committee. With the exception of an hour's intermission for luncheon the committee worked steadily from 10:30 a. m. until 6:30 p. m., and yet left unfinished a number of important rules, which it is expected will occupy their time for another day. The most important adopted were as follows: The home base to be of white rubber; foul lines to be entirely clear of first and third bases; none but "standard" balls, made by A. G. Spalding & Co., of Chicago, and A. J. Reach & Co., of Philadelphia, to be used; batsmen to use the flat bat at their own discretion; coaches are confined to a limited space near first or third base.

There was some discussion of the pitching rules, but action was postponed for the day.

NOVEL PARTISAN SITUATION.

Significance of a Recent Election in Prince Edward's Island.

CHARLOTTETOWN, P. E. I., Nov. 16.—The election for seven legislative councillors in this province, which took place last Thursday, has resulted in a victory for the Liberals, that party electing six and perhaps the whole seven councillors. The legislature of the island is composed of two elective houses. The lower house is called the legislative assembly, the franchise for which is manhood suffrage. The upper house is the legislative council, the franchise for which is restricted to property holders.

The issue in the recent elections was the abolition of the council. The Conservatives desired to have it abolished on the score of economy, while the Liberals demanded its retention. In the campaign the Liberals appealed to the property holders to rally to the support of the council and protect themselves against the "floating population", as it was put—or in other words, against the legislation of the popular body, elected by manhood suffrage. As the result of the election shows, this was done, and hence the Liberal victory.

War on the Substitute System.

WASHINGTON CITY, Nov. 16.—Secretary Manning intends to break up the abuse of the substitute system in his department, under which, heretofore, employes who were sick were permitted to put on substitutes to fill their places. The system is said to have been greatly abused by employes in good health supplying substitutes, who received only a portion of the salary of the position, usually one-half of it, the other half going to the regular employe. An order for clerks who are represented by substitutes to return to their desks has gone into effect. The order will probably not be enforced with a severity that amounts to cruelty, but the cases will have to be of undoubted merit where exceptions are made.

Investigating Matters at Indianapolis.

INDIANAPOLIS, Nov. 16.—The federal grand jury began an investigation into the alleged election frauds and irregularities here Monday. Counselman and Lorenz Schmidt are among the witnesses from Marion county. They are the inspectors from the Fourth and Twenty-fourth wards, the returns from which have been tampered with. These returns are in possession of the federal court, and will be used in evidence. The committee of One Hundred will aid the district attorney in the prosecution, and will employ an attorney for that purpose. Witnesses from De Kalb county have been summoned.

No Subsidy for Pacific Mail.

NEW YORK, Nov. 16.—The Wall Street Daily Ledger prints the following important item in regard to the Pacific Mail subsidy: "Have the transcontinental roads fixed upon any subsidy to offer Pacific Mail?" A representative of The Ledger asked C. P. Huntington yesterday. "Oh, no," replied he, "that is all over."

"Then the roads are not to pay it a subsidy again?" "No."

"And it will have to depend on what it earns itself?" "Yes."

Not Asking for Class Legislation.

PHILADELPHIA, Nov. 16.—At Monday's session of the Patrons of Husbandry, a resolution providing that all annual sessions shall be held at Washington City in the future was referred to the committee on the good of the order. Resolutions selecting Lansing, Mich., and Elmira, N. Y., as places for holding the next annual session were also referred. A resolution asking for legislation by congress in favor of the farmers of the country was defeated.

Munkacsy, the Painter, Welcomed.

NEW YORK, Nov. 16.—A large number of admirers of Munkacsy, the painter, including 100 Hungarian citizens of New York, went down the bay to the steamer La Champagne Monday evening to welcome the distinguished artist to America. Munkacsy is in good health.

EUROPE VERSUS RUSSIA.

England, Germany and Austria Harmonize.

LONDON, Nov. 16.—Lord Salisbury, Count Von Hatzfeldt, German ambassador, and Lord Iddesleigh, foreign minister, held a long conference Monday afternoon on the subject of the candidature of the prince of Mingrella for the Bulgarian throne. Shortly after the conclusion of the conference it was commonly reported that England, Austria, and Germany would interpose objection to his election.

Iddesleigh's solution of the difficulty is the acceptance by Russia of the doctrine that Europe, not Russia alone, is entitled to deal with the complications that have arisen. The consent of Russia to the reference of the whole quarrel to the European powers for decision would be regarded almost as a guarantee of peace. Germany is throwing her influence in the same direction. The extracts from the Russian press on Kalnoky's speech telegraphed here savagely assail Kalnoky, and insist that Russia's sacrifices for Bulgaria give her the right to supreme power over the destinies of the principality.

Francis Joseph Approves of Kalnoky.

VIENNA, Nov. 16.—In an interview with the Emperor Francis Joseph, Monday, Count Andrassy expressed fear that the recent speech of Count Kalnoky before the delegations at Pesth would have the effect to incite Russia to war. To this the emperor replied that he held the belief that the language of Count Kalnoky would have a contrary effect, and said that although he was passionately opposed to provoking war, the attitude assumed by the premier had his full approval.

A Permanent Rumor.

SOFIA, Nov. 16.—It is rumored here that Russia is mobilizing. Gen. Kaulbars has demanded the dismissal of the prefect and subprefect of Philippopolis because the patrol, late at night, disarmed and conducted to the Russian consulate a Russian cavass who had refused to give his name or the pass-word when challenged.

Will Kaulbars Never Let Up?

SOFIA, Nov. 15.—Gen. Kaulbars has declared the trial of Capt. Nabokoff and the other conspirators implicated in the revolt at Bourgas to be null and void.

BALTIMORE & OHIO REPORT.

The New York Connection To Be Ready in December.

BALTIMORE, Nov. 16.—The annual meeting of the stockholders of the Baltimore & Ohio Railroad company was held Monday, Reverdy Johnson, Jr., in the chair. The report of President Garrett was presented, showing the receipts of the main stem for the past year to have been $9,846,613, and the expenses, $4,026,365, or $5,237,741 less than the earnings. The earnings of all the branches, including the Washington branch, were $18,422,437; expenses, $12,035,742; leaving a net balance of $6,386,694.

Speaking of the Philadelphia branch, the president says: "The line between Baltimore and Philadelphia was opened for passenger and freight traffic on the 19th ultimo. The road is strictly first-class, being laid with steel rails and stone ballasted. The Schuylkill River East Side railway in the city of Philadelphia is the connecting link between the Philadelphia line and the system of the Philadelphia & Reading Railroad company. The work on this part of the route has necessarily been difficult and tedious, but its completion is anticipated in the month of December, when passengers from New York will be carried without change of cars to Baltimore, Washington and all points on the system of the Baltimore & Ohio company."

Of the telegraph he says: "The increase in the earnings of the Baltimore & Ohio Telegraph company for the fiscal year ended Sept. 30, has been 172 per cent. compared with 1884, and 41.25 per cent. compared with 1885. In the midst of acute competition the large and increasing patronage thus commanded demonstrates the strength of the company and the value and efficiency of its service."

Michael Davitt at Pittsburg.

PITTSBURG, Nov. 16.—Michael Davitt, founder of the Land league, addressed an enthusiastic assemblage of 2,000 people in Lafayette hall Monday night. The topic of discourse, "The Attainment of Home Rule for Ireland," was introduced by profuse thanks and acknowledgments for the generosity and sympathy of Americans during the struggles of the past seven years, without which, he said, the attainment of the present satisfactory results would have been impossible. The just demands of the Irish people for the right to manage their own affairs, in their own way, with the object of making it the home of a peaceful and progressive nation, were fully discussed, the speaker asking for judgment in favor of Ireland from the tribunal of public opinion. Mr. Davitt considered that Ireland, were she able, would be fully justified in employing more violent means to secure her freedom, but having neither army, navy nor exchequer, such means under present circumstances was not policy. He thought nothing would give Lord Churchill more pleasure than for Ireland to go into open rebellion, and asked for a few more years' trial of Parnell, declaring that the result would be that Irish laws would be enacted in College Green, Dublin, instead of Westminster.

MICHAEL DAVITT.

Mr. Davitt was presented with an address from the Trades Assembly of western Pennsylvania, and a gold-handled umbrella by the Patrick Egan branch of the Land league.

No Law on the Subject.

WASHINGTON CITY, Nov. 16.—A decision was rendered by the supreme court Monday in the case of the steamer Harrisburg and her owners, appellants, vs. Emma R. Rickards et al.; appeal from the United States circuit court for the Eastern district of Pennsylvania, which was a suit brought to recover damages for the loss of a human life through the alleged carelessness and negligence of the employes on board the steamer Harrisburg, granting the appeal inasmuch as there was no law to justify the suit, and if there was it was too late, five years having elapsed since the loss of life.

Sad Death of a Babe.

INDIANAPOLIS, Nov. 16.—A peculiar and fatal accident happened to the infant child of Mrs. Kinnick, living southeast of this city Sunday night. The mother attended church, and when she started to return home the little one was carefully wrapped up to protect it from the cold. When the mother reached home she found that the child had died from suffocation in her arms, though it made no outcry or struggles.

—"Last but not least," is what the friends of the Sisters wish to hope this, the last evening of the Fair, may prove to be in point of attendance. Last evening was pleasantly spent, one of the interesting parts of the programme being a description, by Mr. J. B. Doe, Jr., of the order of "Sisters of Mercy," and the good the Sisters had accomplished. Hon. John Winans is expected to speak this evening. Go, and take your prize.

—Death's call was heard in the home of E. H. Blish, in Johnstown Center yesterday, and the spirit of Mrs. Eusebia L. Blish passed to the abode eternal. The deceased was a woman whose hand was ever outstretched to comfort the afflicted, and whose absence will be felt by many. The funeral services will be held to-morrow afternoon at the family residence.

—"Chickens, by the carload," was the answer a Gazette reporter got this morning when he poked his head in at the door of a corn exchange commission office and asked what was to be shipped in the scores of coops piled up outside. As this was something of a novelty the emisary of the press stepped inside to find out something more. The office was that of Briggs & Stevens and has been established here since the first of November. New York is the point to which most of the poultry is sent and the first car load will probably start Thursday. From one hundred and fifty to two hundred dozen fowls are put in a car, the coops being piled up on each side so that food and water may be easily supplied.

—Considerable complaint is being made by parents of pupils because the present term of our city schools continues until the day before Christmas. That week of preparation; of visits to "five cent" counters, and of youthful scheming will be dropped from the calendar of holidays and the week following New Years substituted. The change does not meet with hearty approval nor does that regarding the time of the spring vacation. This vacation is fixed for the last week in March and the first in April, a part of the year when nature weeps more than she smiles. It has always been the practice to put off the spring vacation until almost the first of May and there is likely to be an effort made to have both the winter and the spring terms changed around. The matter will probably come up at the next meeting of the school board.

Resolutions of Thanks.

Before the convention of the Young People's Society of Christian Endeavor adjourned the following resolutions were adopted:

Resolved, That as the delegates to this convention, we express our warmest thanks to the members of the Janesville society and to the citizens of Janesville, who have so kindly and heartily received us into their homes and shown to us so many favors that we are unable to enumerate them, but the memory and influence of which will go with us for many days, even to that time when we gather again in the city not made with hands, in our Father's kingdom.

HE CARRIED A GUN!

William C. Stevens Draws a Revolver on E. W. Lowell.

And Shoots Three Times—Lowell Escapes Uninjured.

A Sensational Affair.

This morning when the case of the state against Eugene W. Lowell was called in the circuit court it was announced that important witnesses were not present and an application for a continuance was made. This was granted and the case therefore went over. A short time later when William C. Stevens, whose wife made the complaint she being the person with whom Lowell is alleged to have been unduly intimate, was much worked up over the action of the court.

He proceeded at once to Kimball & Lowell's hardware store and entering walked up to the desk near which Lowell was standing.

"Will you go to Canada with me and fight this out?" he said in an excited tone of voice.

"No, I don't want anything to do with you," was the reply.

"You are a — — — — —!" returned Stevens hotly, reaching, as some of the eye witnesses claim, into his over-coat pocket.

At this, Lowell struck out fiercely with his fist, and the first blow was followed by two others. Each left a mark on Stevens face, blood flowing freely.

Just as the last blow was struck, Stevens succeeded in drawing his revolver and fired. The shot missed its mark by only a few inches, passing through one side of the desk near which the men were still standing. Hiram Bump and F. P. Stannard sprang toward the infuriated man and held him. Despite their efforts two more shots were fired, one of which broke the glass in a show case full of sporting goods, while the other flew wild, its track not being found. Lowell ran to the door and, as he saw Stevens trying to follow him, slammed it shut, barring it from the outside with an axe-handle. He called for help and Marshal Hogan who had heard the shots stepped in and put Stevens under arrest. Until this afternoon, however when complaint was made against him, he was not taken to jail, and wherever he went he was folllowed by the curious eyes of those that had heard of the affair. There was also a group around the hardware store most of the afternoon, and the accounts of the shooting, as they passed from one to another, grew into startling proportions.

Stevens was brought up before Judge Patten at three o'clock this afternoon, but on motion of the district attorney his examination was put over until to-morrow morning. Bail was given in the sum of fifteen hundred dollars the defendant's father, Mr. Andrew Stevens going on the bond. When approached by a reporter Stevens said he had nothing to say for publication, his attorney having so instructed him. It is reported, however, that he claims to have drawn a revolver only after receiving several blows in the face, and that he shot in self-defence.

For the Benefit of Asthmatics.

Facts about pure oxygen gas as administered by Dr. Holman S. Humphrey, of the city of Janesville. I can truthfully say that I have received greater benefit by using it direct from the tank, as prepared by the doctor, than by all other combined asthmatic remedies in use, for the past twenty-four years that I have suffered from that supposed incurable disease asthma. I traveled ten miles daily last February and March, through storm and mud without missing but a very few days. When I commenced had been confined to the house for several weeks, and with difficulty managed to get up the long flight of stairs to his office. At the close of March found me very much renewed, my system greatly improved with a gain of twenty pounds in weight. This morning I commence taking again for one month, to fortify me against the sudden changes of winter and cleans my system of accumulated poison of the trying season that has just passed. I give this statement gratis for the benefit of those suffering like myself from that troublesome disease, asthma.

Ald. Fathers, of the gas light committee, submitted a report favoring the placing of four electric lights on each side of the river, the lights to be located by the committee and placed on Main and Milwaukee streets. Ald. J. B. McLean opposed the report, and in support of his position read an editorial from a Chicago paper which strongly condemned electric light for street illuminations. He also referred to portions of the city remote from the business center where there was no light.

The motion to adopt the report was lost, Alds. Carpenter, Fathers, Judd and Thoroughgood voting aye, and Alds. Casey, George, C. C. McLean, J. B. McLean, and Rooney, voting no.

Ald. Thoroughgood presented the following:

To the Mayor and Common Council of the City of Janesville:

The bridge across Rock river from North Fourth street on the east side has been finished since September 1st. The bridge is a permanent structure and of great benefit to our city and county generally; the accommodation it gives to the employes of the cotton factory alone is an item which should be considered by the common council, that corporation being one of our greatest industries when we consider the number of working people employed. It is of vital importance that the bridge should and ought to be owned by the city, and such care taken of it as is taken of other bridges, some of which are not of so much importance as the one in question. I have received from the owners a quit claim deed of the land on the west side which is a permanent grant to the city of Janesville, so long as the bridge is a public highway, said deed is given to the city of Janesville, and is now in the hands of the city clerk Knowing this bridge to be of great convenience, such convenience being fully demonstrated beyond our expectations by the great amount of travel both by team and otherwise, it must necessarily reduce the wear and tear of Milwaukee street bridge, which from the amount of money expended from time to time on repairs is a very expensive item to our bridge fund, and consequently to tax payers; the money subscribed by a very liberal public has all been paid in and to-day the bridge is free from debt with the exception of a balance on lumber. This manner of building bridges is altogether out of character, but it had become an actual necessity for the part of town where it was built. The manufacturing interests as well as others felt the want of such accommodation and under such circumstances the committee formed for that purpose by their money and that of others interested, got together a fund by subscription, which has nearly constructed one of the best bridges in this or any other city, and one that there has been felt a want of for years, and now Your Honor and gentlemen of the council, I move you that the North Fourth street bridge be and is hereby accepted and now owned by the city of Janesville, and takes its place among the bridges now owned by said city, under the name of North Fourth street bridge.

The motion was adopted by all voting in the affirmative.

Also, that the clerk draw an order on the city treasurer for the sum of $950 in favor of John Brown for grading Division street. Adopted.

Also that the sum of $108.24 be transferred from the general fund to the credit of the Division street grading fund, for grading said street. Adopted.

Also that the clerk draw orders on the treasurer in favor of the inspectors and clerks of election in the several wards, for the amounts due them for their services. Adopted.

Also for the payment of the buildings in which the election was held. Adopted.

Ald. Rooney, an order that the city clerk draw an order on the city treasurer in favor of N. Fredericks, for the sum of $54.00, as pay for boarding Marshal Hogan's horse for eighteen weeks. Adopted.

J. B. McLean introduced an order that the Gas Light committee place an electric light at the intersection of Milwaukee. Pleasant, Center avenue and Madison streets. Adopted. All voting aye except Ald Judd.

Ald. C. C. McLean called for the third reading of an ordinance entitled

AN ORDINANCE to prevent the selling of articles on or setting up and maintaining of any booth, article, game, practice, amusement, or device, near the streets of the city of Janesville."

The ordinance, [illegible] finally amended to read as follows:

SECTION 3. This ordinance shall take effect and be in force from and after its passage and publication.

O. H. Fethers, Esq., was present and spoke in favor of the passage of the ordinance.

The ordinance was read the first and second times and laid over under the rules.

Ald. J. B. McLean an order that the width of the sidewalk on the east side of Jackson street, from Milwaukee to Pleasant street be twelve feet and that of the rules be suspended and the order be passed. Adopted. Ayes 9.

Ald. Judd moved that the street commissioner be instructed to collect the poll tax and report the amount collected each month to the council. Adopted.

Ald. Fathers introduced an order instructing the city clerk to make an index of the record of the matters in his office from the organization of the city to the year 1870. Adopted.

Also that the highway, street and bridge committee places the names of the streets on each lamp post. Adopted.

Ald. J. B. McLean made an explanation in relation to the conditions of the road near the stone quarry in the fifth ward, that the alderman of that ward had spent about $250.00 upon that road, and instead of driving upon the road and packing it down, the drivers of vehicles had gone into the gutter, and with the expense of a few dollars the road would be in a fair condition, and that in the spring the alderman of that ward would take the matter in hand and see that at it was put in good shape.

On motion adjourned.

IN MEMORY

OF JEANETTE BOUE.

Sadly we gaze at the vacant chair,
We do not find our darling there;
Shoes, dresses too, she'll never wear;
God give us strength our grief to bear.

Gone, how great that word,
Gone where the angel's voice is heard,
Her soul with Heaven's music stirred,
Jesus called her and she heard.

Stilled by death's great frost,
Stilled, yet our darling is not lost;
Ever looking to the heavenly cross,
She has safely through the valley walked.

Gently lay her there to rest.
God's will be done, He knows what's best
Life's hill she has climbed and reached the crest,
And in Heaven we know that she is blest.
